Abstract

Soiree is an E-commerce is a fully functional online shopping website designed for retail marketing of clothing and clothing accessories. It is built using HTML and CSS for responsive interaction and JavaScript makes the page more dynamic and visually appealing. Soiree's interactive UI is created using React which also supports front-end functions like user register and sign-in. It uses Node and Express framework to run web server and API endpoint. Soiree is hosted on secure servers to make the website and transaction more secure.

Technologies Used

Front-End Framework usage

- HTML and CSS
- JavaScript
- React
- Redux

Backend-End Framework usage

- Node js

API

- Express

Database

- MongoDB
- Mongoose

Member Contributions

- Likitha Kolli -
 - 1.Designing Web template
 - 2.Product screen
 - 3.Editing product and listing
 - 4.Profile screen
 5. Adding items to shopping cart
- Kale Pranav Shirish -
 1. User register
 - 2.Sign in screen
 - 3.Shipping address screen
 - 4.Payment method using PayPal
- Kiran M Kannur -
 1. Placing order
 - 2.Order screen
 - 3.Order list screen
 4. Order history
